Strike in the Pennsylvania Coke Region.

SNOW STORM IN GREAT BRITAIN.

A Brutal Attempt at Wholesale Murder.

More Indian Troubles Predicted by a Missionary.

Trouble With Strikers.
By Associated Press.]

PITTSBURG, March 30.—Nearly a thousand strikers attacked Frick's coke works at Morewood at two o'clock this morning. They destroyed the coke ovens and railway track and broke the windows of several houses. Several raiders were arrested. Riots were also reported at Leisenring and Leith, where considerable property was destroyed. Great excitement prevails throughout the coke country and serious trouble is apprehended. The troubles have assumed a new phase, and now threaten to develop into a war between the operators and laborers organizations. Frick stated to-day that heretofore he had not antagonized labor, but in the future he did not propose to stand by and see his property destroyed.

A dispatch from Scottdale, Pa., says there is rioting at a large number of the coke plants. A mob of fifteen hundred infuriated strikers swept down on the Juntown plant early this morning and routed the workmen, assaulted several men and threatened the Superintendent's life. Bombs were set off at West Leisenring, and the men were notified not to go to work. The Leith works near Uniontown were also raided and the workmen put to flight. The labor leaders are trying to allay the excitement, as other raids are feared. The Frick Coke Company officials here have notified the Sheriff to increase their forces.

A Brutal Attempt at Wholesale Murder.
By Associated Press.]

NEW ORLEANS, March 30.—A brutal attempt at wholesale murder was made at New Zion Church, near Liberty, Mississippi, Saturday night, at a school examination and concert given at the Payson Hill schoolhouse, where Miss Ida Dixon (colored) had just closed a session of the public school for colored children. While the teacher and her pupils were about to begin the entertainment to a large audience of colored people and quite a number of white persons, a doubled barreled shotgun, heavily charged with shot, was fired into the assemblage by some unknown miscreant, wounding, it is said, some fourteen persons, some of them seriously and others slightly. The assassin has not been discovered.

More Indian Trouble Predicted.
By Associated Press.]

PROVIDENCE (R. I.), March 30.—A letter dated Pine Ridge Agency, from Rev. Father Craft, Indian missionary, who predicted the recent Indian trouble, earnestly points out the danger of more serious trouble unless the Indians are placed under the control of the War Department. He declares the Indians are being robbed and misused by the politicians.

The Treacherous Apaches.
By Associated Press.]

WILCOX (A. T.), March 30.—Nine prominent Apaches have been arrested within the last forty-eight hours and placed in irons at San Carlos, under guard. Among the prisoners is old Chief Eskillizene, called "Skillmy" for short. The first five prisoners were arrested on warrants issued by the civil authorities charging them with the murder of a white man a year ago, but Eskillizene and the other three were apprehended for giving aid to "Kid," a notorious renegade and murderer, who defied and eluded the authorities for years and for whose capture the government has vainly expended thousands of dollars. All Kid's close and open companions in crime, have been killed, but he periodically makes his appearance within a few miles of San Carlos. As soon as his presence is reported at the post, a detachment of cavalry and scouts are sent in pursuit. He appeared last, a week ago, within seven miles of San Carlos and troops were sent in pursuit of him six days ago, but up to yesterday afternoon nothing was heard from the pursuing party. Eskillizene is the ablest and craftiest and most treacherous and most dangerous of all the Apaches on the reservation.

The Testimony Admitted.
By Associated Press.]

WASHINGTON, March 30.—Judge Bradley delivered his decision in the Criminal Court to-day in the Kincaid case, on the question as to the admissibility of testimony going to show that deceased had, on various occasions, threatened the life of defendant. The Court held that the evidence was admissable. Defense then called W. E. Curtis, Perry Heath, A. J. Kelley, ex-Congressman Lafoon of Kentucky, and Representative Paynter of Kentucky, to testify as to hearing Taulbee say that he would kill Kincaid.

He said this morning that the commission found the river to be very high, indeed, higher than during the great flood of '82, and yet there had been but three breaks in the levees so far. "Still," he said, "there is a good deal of danger of flood, and I should not want to predict there will not be one. I think, however, the chances are that the greatest danger has been passed."

The Behring Sea Question.
By Associated Press.]

WASHINGTON, March 30.—The Department of Justice has received the return of the Alaska District Court to a writ issued by the Supreme Court asking that a cause be shown why a writ of prohibition should not issue in the case of the schooner Sayward, libeled for a violation of the law forbidding sealing in Behring Sea. A Newspaper War.
By Associated Press.]

CHICAGO, March 30.—The case of J. J. West vs. The People of the State of Illinois, in which an opinion was handed down by the Supreme Court at Ottawa to-day, grows out of a struggle for the possession of the Chicago *Times*. Several years ago West and Clinton A. Snowden, then the owners of the *Times*, secured the co-operation of Huiscamp Brothers Company and other wealthy capitalists of Keokuk, Iowa, and bought the *Times* from the heirs of the late Wilbur F. Story. West was installed as manager of the paper in behalf of the syndicate. The company became so largely involved by the extravagant management of West that the Huiscamps and their associates found it it necessary to oust West from the management in order to protect the property. An investigation of the affairs of the company disclosed the fact that there was an over-issue of stock to the extent of several hundred shares. Criminal proceedings were at once instigated against West and Secretary Graham. West was found guilty and sentenced to five years in the penitentiary, while Graham was acquitted. An appeal was taken to the Supreme Court, which reversed the judgment and remanded the case.

Quinton, Chief Commissioner of Assam, has been investigating some troubles which occurred among the native chiefs, with a view to arresting the one who has been instrumental in deposing Rajah. There was a two days' battle, during which desperate fighting took place. The Goorkhas fought most determinedly against heavy odds, and according to report 470 of them were killed. A Celebrated Case.
By Associated Press.]

WASHINGTON, March 30.—The Supreme Court of the United States to-day refused to grant an application for a writ of habeas corpus in the somewhat celebrated murder case of Dick Duncan vs. McCall, the Sheriff of Bexar county, Texas, in which it was sought to bring into question the validity of the entire penal code of the State of Texas. Duncan was duly indicted, tried and convicted in Texas of the murder and sentenced to be hanged. He appealed his case through all the intermediate courts in the State of Texas, and when the Court of Appeals of the "Lone Star State" decided against him, the case was taken to the United States Courts, and the decisions still being against him, it was brought here. The Supreme Court, in an opinion by Chief Justice Fuller, affirms the judgment of the Circuit Court from which the last appeal was taken.

Duncan's contention was that the penal code of Texas had never been lawfully enacted in accordance with the requirements of the State Constitution, and that the code enrolled differed, through errors of the enrolling clerks, from the code passed by the State Legislature. Had Duncan's contention been sustained, it would have resulted in a release of all the prisoners in the State, and would have totally upset the State criminal system.

Bridal Bathing Dresses.

They are to have this year, at Monterey, bridal bathing dresses, which are worn en train. The bridal veil is of delicate green, and suggestive of the folly of the "contracting parties," as the reporters have it, whenever they put their head into the noose. Sponge trimmings and delicate mussel shell borders have been discarded, because they were found to be too heavy in the water. Crab trimmings, though inconvenient, will still be retained.

5 O'CLOCK EDITION

Easter.

Easter morning opened bright and sunny yesterday morning. The festival never can occur before March 22d, and we had it this Spring only a week later, March 29th. The rule which fixes this date was settled many centuries ago. As in other matters, the Roman and the Greek churches do not agree in this, but outside of the sphere of the Greek church the day is the same throughout Christendom. Next to Christmas this is the queen of all festivals, and a glad culmination of the bright feasts that encircle the year. It is the day of the crucified Lord's resurrection and the yearly occurrence of the day is observed by Christians all the world over. It is one of the most important days in the Christian calendar—the day in which our Savior arose from the tomb and ascended into Heaven.

The various churches in Reno were elaborately and beautifully decorated with lilies and other sweet flowery offerings, given as tokens of gratitude and gladness. Costly exotics and glorious music greeted the morn of resurrection, the anthems swelled to heaven and all sermons were attuned to fit this holy festival.

The worshipers of the meek and lowly Savior in Reno found divine consolation at all our churches where special services weee offered up.

THE Democrats are loudly proclaiming their purpose to reduce appropriations and retrench expenditures at the next session of Congress. A Washington telegram says that Representative Oates of Alabama, who is a rigid economist as well as a strict constructionist of the Constitution, declares against all future appropriations for the relief of sufferers by flood or drouth, saying: "There are many Democrats, I am sorry to say, who are ready to vote for gratuities and bonuses and unconstitutional charities. When, in addition to this, I find Democrats, calling themselves such, who are willing to advocate such paternal ideas as the sub-treasury scheme, I find it hard to distinguish between Democrats and Republicans." There is one important measure, however, in respect to which Colonel Oates does not betray so deep an anxiety for retrenchment, and it is a measure which, if it should become a law and be declared constitutional, would take $68,000,000 from the National treasury. It is the bill for the refunding of the cotton tax collected during and after the war of the Rebellion. This is a measure which Colonel Oates and nearly all the other Southern Democrats have warmly championed ever since the war.

THE last time Grant ran for the Presidency Hon. Charles N. Felton, the newly elected United States Senator from California, was Treasurer of the Republican State Central Committee of that State. It ran out of funds. Combined the committee could not secure influences wherewith to raise the "sinews of war"—which sinews are always money. To use a trite expression, there was not a "bean in the pot." The urgency of the case was presented to Mr. Felton. He did not hesitate. He said, "All right; I am the Treasurer. Draw on me for every dollar needed, until we can collect some money." Before the treasury was reimbursed Mr. Felton had, from his private means, honored requisitions of the Republican State Central Committee to the amount of $17,500.

The Warden of her States Prison gets a salary of $1,500 and a deputy $1,000; guards $500.

THE successor of the late John F. Swift as Minister to Japan will not be taken from this Coast, but will be selected from some of the Eastern States.

HEADS OF FAMOUS FRENCHMEN

How Some Great Characters Are Judged by Scientific Measurement.

Scientific Paris is just at present enthused over a new fad, well known in America—the shapes and measurements of the heads of famous people, says the New York Journal. Among the recent experiments, made with a measure such as is used by a hatter to shape hats to order, are some extremely curious results. Of course the exact dimensions of the craniums of historic personages have to be secured from pictures and busts.

One of the most irregular is that of Voltaire, which is almost pear-shaped, bulging out suddenly and offering a curious number of indentations. If this is the philosophical head—philosophy not unmixed with poignant satire and cynicism—then the legal cranium differs radically from it.

M. Demange, one of the ablest criminal lawyers in Paris, the man who conducted with the most consummate skill the defense of the murderer Pranzini, has a perfectly round head.

General Le Brun might represent the military head, almost oblong, but General Ferron's, a brave and capable French commander, is entirely round. The latter is prudent and cautious in his movements.

Gambetta had a very ordinary head, coming slightly to a point in the rear. This is the French political cranium.

M. de Cassagnac has an enormous head, almost perfectly round, and quite ample enough to harbor all the different fends to which he has been a party. If his head is to be taken as an illustration of combativeness, as shown in the numerous duels in which he has been a principal, then M. Henri Rochefort's, his rival in that regard, is almost the opposite type—rather long, narrow and of a very irregular shape.

The head that wears a crown, or rather should wear a crown, if the Royalists are to be believed, is narrow in the head and almost regular in shape. The Duc D'Aumale and the Duc de Montpensier are similar in regard to the shape of the forehead, but the latter's is enormous in its proportions.

Marshal MacMahon is a combination of the military and the political—a narrow forehead, small oblong head, a little like Voltaire's, but of much smaller proportions. It is almost the same as that of Gambetta, but not so regular. A very small head is that of the Prince of Monaco, who has never distinguished himself in any particular; while a regularly long and narrow one, almost the facsimile of a foot, belongs to Osman Pasha.

The French scientists believe that race and nationality have much to do with the shape of the head. The same military genius who in one part of the world has a long, narrow head, in another part will be small and round. According to them the North Germans, Swedes, Norwegians and Russians are long-headed, deriving their origin from Eastern sources, while the South Germans, the Austrians, the Hungarians, the Swiss, the Irish, the French, being of Celtic origin, are round and broad in the shape of their craniums.

A SINGULAR WARFARE.

It Is Waged by the Nobility on Waiters Who Wear Mustaches.

A Vienna dispatch to a London paper says: A curious wager is at present occupying the attention of such widely separated classes as our young noblemen and the Association of Hotel and Restaurant Waiters in this capital. Several of the young scions of the highest Austrian aristocracy, who were accustomed to dine in an old hotel of high repute in the Karnthner Strasse, took exception to the practice of the waiters, most of whom have seen twenty or thirty years' service, in dressing their mustaches in just the same fashion as the "noble swells" they had to serve. One of the high-born customers accordingly laid a wager, which was immediately accepted, that within a given time the objectionable adornment should disappear from the upper lips of the waiters in all the fashionable hotels and restaurants in Vienna, otherwise the proposer himself was to shave off his own embellishment for a given period.

In order to effect his purpose, the latter commenced by trying to persuade the hotel-keeper in the Karnthner Strasse to forbid all his servants wearing mustaches, on penalty of losing his aristocratic customers. In this case he succeeded, but the waiters, who were mostly married men, one after another gave notice to leave their places. They were at once replaced by younger men who, for a consideration, submitted to the imposed humiliation. The same thing happened in a number of other hotels and restaurants, and the wager was nearly won by the layer, when the proprietor of the Hotel Imperial, the first hotel in Vienna, flatly refused to comply with the whim of the Vienna jeunesse doree, whom he told ontright that if they deserted his house he should readily find better customers. The case was also taken up "as matter of right and honor," by the Association of Waiters, which threatened to expel from the society any member degrading himself by humoring aristocratic caprice in this matter. Thus the matter stands at the present moment. The bet appears likely to be lost, and then will come the triumph of the waiters, who expect soon to have the satisfaction of seeing their would-be dictators, instead of themselves, going about with shaven lips.

Terrible Siberia.

Siberia has no less a bad name for lawlessness than for climate, for convicts escape from confinement during summer and prowl about preying upon the inhabitants. This is often done with the connivance of the police authorities, it is said, who not merely draw the allowance for the escaped convict but accept part of the spoil when he returns with the approach of winter, when no robber can live in the woods or on the road through the long months of severe frost. An attempt is about to be made to reform the administration, chiefly with the view of separating the office of juge d'instruction, or examining judge, from police functions. In each town and village of Western Siberia there is to be, according to the proposal coming before the imperial council, a creation of justices of the peace. The present provincial tribunals will fulfill the functions of a court of appeal.

C. A. SWAN: Hood's is the most popular sarsaparilla of the day.

THIRTY OTHER druggists speak similarly.

This popularity at home, where Hood's Sarsaparilla and its proprietors have been known for many years, could not continue if the medicine did not possess merit. And these facts should certainly convince people in other sections of the country that Hood's Sarsaparilla is a good, reliable medicine.

OPERA HOUSE DRY GOODS STORE.—C. W. BOOTON.

To the Business Men and Citizens of the State of Nevada:

The time has come when I am compelled to plead my own cause in this boycotting business. First, I will acknowledge that I signed the first contract to close at 8 o'clock, also that I did all I could to carry it out and help the League, but as it has been my misfortune to have reverses in business, and as I was compelled to raise money for parties that I owe, I went to the Clerk's League at a meeting on two different occasions, and told them it would be impossible for me to close at 8 o'clock.

Now, when the League says that I, on different occasions violated my pledge, all I can say and can prove, and that by Mr. Al Wilson, who is a member of the League, that it is FALSE, as Mr. Wilson has been in my employ since the contract was signed,

So far as my word is concerned, it is for the people to say, and not for the League to publish such trash to the entire State. I will further state that when the time comes that a few boys try to pull down and degrade a man when he has the misfortune that I have had, then it is high time to sell out and let the boys run the town.

Respectfully,

C. W. BOOTON.

JOTTINGS.

"How is your boy getting along at Harvard?" "First rate. He writes me that he goes to Boston every night to study the stars." I board at the Riverside Hotel.

Probably Tennyson's declaration to write a poem for the World's Fair was due to inability to find a rhyme for Chicago. C. A. Thurston keeps the works of all the poets elegantly bound.

She—You won't want me to give up my typewriting after we are married, will you? He—No, indeed! We have to live, havn't we? Go to the Arcade for oysters and excellent meals at all hours.

Winkle—You say you did not go to Berlin on your trip abroad? Hodd—No; my sister is over there learning how to sing. And I can get better beer at J. J. Becker's than any to be had abroad.

The Result of Merit.

When anything stands a test of fifty years among a discriminating people like the Americans, it is pretty good evidence that there is merit somewhere. The value of a medicine is best proved by its continued use from year to year by the same persons and families, as well as by a steady increasing sale. Few, if any, medicines have met with such continued success and popularity as has marked the introduction and progress of Brandreth's Pills, which after a trial of over fifty years, are considered to be the safest and most effectual purgative introduced to the public.

That this is the result of merit, and that Brandreth's Pills actually perform all that is claimed for them, is conclusively proved by the fact that those who regard them with the greatest favor are those who have used them the longest.

Brandreth's Pills are sold in every drug and medicine store, either plain or sugar-coated.

Is Disease a Punishment for Sin?

The following advertisement, published for a prominent western patent medicine house would indicate that they regard disease as a punishment for sin:

"Do you wish to know the quickest way to cure a severe cold? We will tell you. To cure a cold quickly, it must be treated before the cold has become settled in the system. This can always be done if you choose to, as nature in her kindness to man gives timely warning and plainly tells in nature's way, that as a punishment for some indiscretion, you are to be afflicted with a cold unless you choose to ward it off by prompt action. The first symptoms of a cold, in most cases, is a dry, loud cough and sneezing. The cough is soon followed by a profuse watery expectoration and the sneezing by a profuse watery discharge from the nose. In severe cases there is a thin white coating on the tongue. What to do? It is only necessary to take Chamberlain's Cough Remedy in double doses every hour. That will greatly lessen the severity of the cold and in most cases will effectually counteract it, and cure what would have been a severe cold within one or two days time. Try it and be convinced." 50 cent bottles for sale by J. B. McCullaugh, Druggists.

Is Consumption Incurable?

Read the following: Mr. C. H. Morris Newark, Ark., says: "Was down with Abscess of Lungs, and friends and physicians pronounced me an incurable consumptive. Began taking Dr. King's New Discovery for Consumption, am now on my third bottle, and able to oversee the work on my farm It is the finest medicine ever made." Jesse Middlewart, Decatur, Ohio, says: "Had it not been for Dr. King's New Discovery for Consumption I would have died of lung roubles; was given up by doctors; am now n best of health." Try it. Sample bottles free at Pinniger's drug store.

Quick Work.

From the Des Moines Mail and Times.

A few days ago while sitting in Elder Bros.' drug store at Tingley, Iowa, Mr. T. L. Dyer, a well known citizen, came in and asked for something for a severe cold which he had. Mr. Elder took down a bottle of Chamberlain's Cough Remedy and said: "Here is something I can recommend. It commands a large sale and gives genuine satisfaction. It is an excellent preparation and cheap." Mr. Dyer purchased a bottle, and the next day when we saw him he said he was much better, and the day following appeared to be entirely restored. This is a specimen of the effectiveness of this preparation. For sale by J. B. McCullough, druggist.

Electric Bitters.

This remedy is becoming so well known and so popular as to need no special mention. All who have used Electric Bitters sing the same song of praise. A purer medicine does not exist and it is guaranteed to do all hat is claimed. Electric Bitters will cure all diseases of the liver and kidneys, will remove pimples, boils, salt rheum and other affections caused by impure blood. Will drive Malaria from the system and prevent as well as cure all Malarial fevers. For cure of Headache, Constipation and Indigestion try Electric Bitters. Entire satisfaction guaranteed or money refunded. Price, 50 cts. and $1 per bottle at Pinniger's drug store.

Coughs, Hoarseness, Sore Throat, etc., quickly relieved by Brown's Bronchial Troches. They surpass all other preparations in removing hoarseness and as a cough remedy are pre-eminently the best.

The "Life of the flesh is the blood thereof," pure blood means healthy functional activity and this bears with it the certainty of quick restoration from sickness or accident. Dr J. H. McLean's Strengthening Cordial and Blood Purifier gives pure rich blood, and vitalizes and strengthens the whole body. $1.00 per bottle.

LAWS OF NEVADA.

Passed at the Fifteenth Session of the Nevada Legislature, Ending March 19, 1891.

The GAZETTE continues to-day the publication of the laws enacted by the last Legislature. Those of only local character are given in brief synopsis, while any of general interest will be given in full:

Requires the Justice of the Peace, before whom applicants for bounties appear, to administer an oath, cut off the ears of the gopher scalps and destroy them and issue a certificate, for all of which he shall receive a fee of 25 cents, nothing prohibiting the Justice from eating the ears, providing his teeth are sound enough to destroy them. The law is imperative on this last point.

CHAP. XL.

An Act relating to elections and to more fully secure the secrecy of the ballot. This is the so-called Australian ballot law, and as it comprises thirty sections, publication will be deferred until such time as occasion may seem necessary.

CHAP. XLI.

SEC. 2. Said building shall not be less than thirty feet, or more than forty feet square, and shall be two stories in height, not less than twenty-eight feet from floor to ceiling, with mansard roof.

SEC. 5.—There shall be kept a book of records (open for inspection) under such rules as may be made by the Regents, of all mineral ores, or other matters, with history stating what each contains, the county from which it came and other matters that may complete its history.

SEC. 6. Any citizen of Nevada shall have the right of sending ores, mineral, soil or water and have the same analyzed free of charge, and the result of such analysis returned to him by mail, with as near as possible their uses, where mined and their value in market; provided, mineral ores, soil or water may be rejected if the same kind and from the same place have been analyzed before.

SEC. 7. The said Board of Regents shall have the power to make all rules necessary to the management of said laboratory.

SEC. 8. Provided nothing in the foregoing sections shall be construed as meaning a simple assay for gold or silver.

SEC. 9. On receipt of samples for analysis, such samples shall be numbered and analyzed in the order in which they are received.

SEC. 10. The sum of eight thousand dollars is hereby appropriated of any money in the State University Contingent Fund for the construction of said building and maintenance of such laboratory.

Amende Honorable.

The *Journal* accuses the GAZETTE of cribbing a telegram from its columns that appeared last Friday. The item alluded to had been on our "side hook" since last Thursday, and in the rustle incident to "cleaning house" it got lost in the shuffle and was inadvertently put in the "make-up." The GAZETTE offered its apology Saturday. The GAZETTE has more telegrams of its own than it is able to handle and has no occasion for cribbing from that obscure sheet. It is now in order for the *Journal* to account for its item relative to the coming of Secretary of War Proctor that appeared in the GAZETTE Friday and did not find its way into the *Journal* until Sunday morning.

Easter Service.

Easter services were pretty generally attended yesterday. The Episcopal people decorated the church with natural flowers from the southern cities of California, and it looked spring-like and very beautiful. The sermons were very impressive and the music good. The Baptist and Methodist churches also held Easter services and were largely attended.

The Minstrels.

Cleveland's minstrels made an imposing street parade to-day and will undoubtedly have a full house to-night. The company is deserving well of the public for they give a first-class performance.

SPRING TIME.

"When Spring's First Gale Comes Forth to Whisper Where the Violets Lie."

A lady of pronounced literary taste contributes the following to the GAZETTE. The subject is inspired by the myriads of wild violets that at this season of the year are so abundant in and around Reno.

The children have awakened to the knowledge of the joyful fact that spring has come. They know it by the humming of swarms of eager bees about the fragrant pines, devouring the celebrated "cedar manna" doubtless. They know it by the enchanting, sweet notes of the meadow larks; by the myriads of busy, chattering birds, searching through hedge and hollow for a secluded nook, a suitable nesting-place; by the crisp water-cress they find in the cool, rippling streams which pay tribute to our picturesque Truckee. They know it by the token of the millions of violets which dot our meadows and hillsides—fragrant, but not over modest violets—for they assure us it is no trick at all to discover them. They do not hide themselves under their leaves as the old-fashioned ones were ever said to do, but their little purple-hooded heads reach up above their foliage, unabashed by the warm sun's glances or the wooing of the sighing gale, and even the snow and sleet of the past few days has pleased them not one bit, as the groups of merry, ruddy-faced school children returning from their scamper over our many hills and down deep gullies, with their little hands grasping great bunches of the fragrant blooms, attest; and as the boys and girls of uncertain years take in the glowing picture they resolve upon an early morning meander themselves.

It is easy to observe the effect of the many springs their now lagging feet have wandered through in search of their favorite or oft heard of flower. There was a time when they were satisfied with a simple daisy chain or a bunch of sweet-wood violets. Now they long for blossoms which they know only grow near the summits of high mountains on perilous steeps and crags, and after the risk to life and limb, even when grasping the coveted prize, they scarce regret to see the leaves shrivel and grow brown; they tire so soon of the object of their weary quest. They realize with a sigh that the greatest pleasure lies not in the possession—it is in the seeking, not finding. They envy the merry, thoughtless, laughing urchins with their chubby, brown hands holding so lovingly their bunches of violets—flowers which have ever proved eloquent to poet, painter and lover. They think of the words by Baillie addressed to a child.

The wilding rose, sweet as thyself
And new cropped daisies are thy treasure;
I'd gladly part with worldly pelf
To taste again thy youthful pleasure.

But yet for all thy merry look,
Thy frisks and wiles, the time is coming
When thou shalt sit in cheerless nook,
The weary spell or horn-book thumbing.

Well; let it be!—through weal and woe,
Thou knows't not now thy future range;
Life is a motley, shifting show,
And thou a thing of hope and change.

Sitting to-night with a great cluster of these wild violets before me, the gift of a dear little hunter—why does the exquisite perfume they exhale which charms my senses so—why should they remind me of past joys when I would fain be satisfied with the present. Lytton says:

"Of by a flower, a leaf in some loved book, we mark the lines that charm us most; retrace thy life; recall its loveliest passage; look—dead violets keep the place."

A. K. D.

HOUSE BURGLARIZED.

Residence of County Clerk Perry Entered and Robbed.

Last night during the absence from home of the family of County Clerk Perry, his house was burglarized and robbed of all the cash and jewelry, a gold watch and numerous specimens from Ollie's cabinet. The loss was discovered on the return of the family from church; the officers were notified promptly, and just before the arrival of the late train Officers Upson and and Nash nabbed the men suspected and found convincing proof in their pockets, for in them were all the stolen articles, and as it was evident that they were preparing to leave on the next train, they are probably the burglars. They were arrested at the depot last night while quarreling over the swag, preparatory to their departure west. They will have their examination to-morrow.

Sugar Beet Culture.

The GAZETTE has heretofore presented the results and deductions of skillful experimenters in the cultivation of the sugar beet, and has only one further suggestion to make and that is that the experiments have all demonstrated that no success will result unless proper seed is procured.

An eminent authority says: Little can be said in favor of the ordinary American grown seed called by courtesy sugar beet seed. In fact all tests have shown that they are little better than ordinary mangel wurtzels. We must procure our seed from eminent breeders at first, but our greatest need at present is for reliable American grown seed, propagated from pedigreed seed.

From experiments made it appears that the variety obtained from the Oxnard Company and the Bulteau Desprez give the highest per cent. of sugar, while the Pajaro Valley leads all other in the yield of sugar per acre.

Penny Wise and Pound Foolish.

A careful perusal of the GAZETTE'S advertising columns will convince anyone where the best trades can be made. A business (?) man who is afraid to advertise his goods is hardly a safe man to do business with. The inferiority of the goods he carries generally cuts quite a figure and makes up more than the difference of what he "saves" in advertising. In fact a man who is ashamed to bid for his share of trade through the columns of some good newspaper will not do.

Good Advertisers.

The GAZETTE is in receipt of a package of music from the Charles A. Vogeler Company of Baltimore, Md., the manufacturers of the celebrated St. Jacob's Oil. They are advertisers and no mistake, but as advertising is the success in trade they make it pay.

Highest of all in Leavening Power.—U. S. Gov't Report, Aug. 17, 1889.

PERSONALS.

C. C. Wallace went east on this morning's train.

Colonel T. B. Woods of Virginia passed Sunday in Reno.

Harry Summers of Carson passed through to San Francisco last night.

Mrs. G. A. Thoma and sister, Miss Wilsey, left for Sacramento last evening.

Miss Cora Manning leaves to-night on a month's visit to friends in Benicia.

A. Bergman, the Carson clothing merchant, was a passenger to San Francisco last night.

C. H. Markham and wife left Reno for Fresno last evening. Mr. Markham made many friends while in Reno and the GAZETTE regrets his departure.

H. M. Yerington came over from Carson yesterday on a V. & T. special; went out to Wadsworth, returned at midnight to Reno and took the special train for home.

A Fine Office.

The GAZETTE is safe in saying that it has the finest business office and editorial rooms in the State, if not in California. New paper, paint, carpets and office furniture give it the appearance of a parlor. How long we shall be able to keep it so remains to be seen, but judging from past spasmodic spells of "house cleaning" it is not safe to crow very loud.

The Knights' Easter.

About ten members of DeWitt Clinton Commandery, Knights Templar, left here yesterday morning by special train for Virginia, where they went to attend Easter services. The order turned out in a body and attended the Episcopal Church, and with their black velvet trappings made a very imposing appearance.

The Prostrating Shocks

Of malarial fever are not to be counteracted by quinine with any degree of certainty or for any length of time. The eradication and prevention of diseases of a miasmatic type are, however assertained possibilities. Long experience has shown that there is infinitely more preventive efficacy in the fine botanic medicine, Hostetter's Stomach Bitters, than in the alkaloids, drugs and poisons which were formerly the only recognized means of removing and anticipating of fever and ague and bilious remittent. When the system has been depleted by periodically recurring paroxysms, this agreeable restorative renews the fund of energy, and is not only a positive specific, but repairs the damage to the general health inflicted by all febrile compiaints partaking of the malarial character.

Advice to Mothers.

MRS. WINSLOW'S SOOTHING SYRUP should always be used for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. Twenty-five cents a bottle

The weather's manner strange will keep one in a state of constant fluster, to know just when to change his chest-protector for a linen duster. For cigars and tobacco, pipes, cutlery and notions go to A. Nelson.

Attention is called to the new ad. of Dr. Herdan, who has made many friends in Reno. He goes to Carson for five days in the week, and can be found at the Clarendon Hotel Monday evening and Tuesday.

Oh, gas may escape and gas may burst, and vanish in noise and flame, but the meter's hand, in its quiet way, goes traveling onward day by day, and gets there just the same. Look at the boys' suits in John Sunderland's show window.

PRACTICAL TESTS.

An Astonishing Offer—Some of the Replies.

The San Francisco papers of recent date contained the following offer:—

"As an evidence of the ability of Joy's Vegetable Sarsaparilla to prevent sick headaches, we will give to the first twelve responsible persons who will apply at our office a bottle free if they will agree that after they have been cured that they will admit the fact over their signatures."

This offer so startlingly asserted the efficiency of the remedy that many accepted, and the letters of the parties, nearly all of whom responded, are probably the most convincing attestations that any remedy ever received. The following is a sample of those received:—

I have been subject to bilious headaches and constipation for several years past; in fact, have been compelled to take a physic every other night or else I would have a headache and dull, mean feeling. I have taken that bottle of Joy's Vegetable Sarsaparilla, and have derived great benefit from it, and intend continuing it. After my own experience I can heartily advise those troubled with billousness and constipation to try it. Yours, CHAS. E. ELKINGTON,
125 Locust Avenue, San Francisco.

A Michigan Central Railroad Employe Wins His Case After Seven Years Contest.

While employed as agent of the Michigan Central Railroad Company, at Agusta, Mich., my kidneys became diseased, and from an impovished and impure state of the blood, my general health was entirely undermined. I consulted the leading physicians of this city and Ann Arbor, and all pronounced my case Bright's disease. In October last I began taking Hibbard's Rheumatic Syrup, and am to-day a well man. It affords me pleasure to render suffering humanity any good that I can, and I wish to say that I think it is the best blood, kidney and liver medicine in the world.

the result is a collision, whether "coming thro' the rye," or not. Life is full of collisions. We are constantly colliding with somebody or something. If it isn't with our neighbors it is with some dread diseases that "knocks us off the track" and perhaps disables us for life. Women especially it seems, have to bear the brunt of more collisions and afflictions than mankind. TRICKS OF ACROBATS.

An Old-Time Tumbler Tells How to Turn a Somersault.

"What man or boy ever went to a circus or variety show, where a troupe of acrobats were on the bills, without having a vague sort of hankering to be able to throw a pretty somersault or a series of neat 'flips'? If his blood ever does flow through his veins at times faster than at others, it is when he sees a neat 'brother act' wound up with the 'roll over,' accompanied by the familiar 'Hi-ya! Hi-ya!' of the performers, and the band playing as if crazy."

These remarks were delivered by a short, stout little man, as he sat at a table in the bar of one of the quieter of the uptown hotels. Not ten years ago his name appeared on three-sheet posters in letters a foot high, says the New York Sun.

"Hard to learn? Why, bless you, no. All the talk about having to be double-jointed and without a backbone is bosh of the worst kind. A man certainly wants the stiffest kind of a back, and a good strong pair of legs, or he will never be a tumbler or leaper.

"Mind you, I don't allude to this contortion business; that's different. When I say the stiffest kind of a back I don't mean one that can't be bent to a reasonable extent, but one set up with good strong muscles—muscles which, when called upon for a little extra effort, will respond with some vim. We have often heard that it requires constant practice for years, dating almost from the cradle, to become a finished acrobat. Why, I never did a 'flip' in my life until I was eighteen years old, and if there was anybody in the ring who could throw a higher somersault, or get over more elephants than I could when I was twenty, I never ran across him.

"How did I learn it all? Easy enough. All you need is a set of 'lunges' and a mattress.

"May be you don't know what 'lunges' are. Simplest arrangement you ever saw. Just a broad leather belt, with a ring at each side, from which two light manilla cords run up through a couple of pulley-blocks screwed into the ceiling. The ends of the cords are held by somebody who knows what he is about, and that's all. With this rigging you can learn all there is to know about tumbling, from a plain handspring to the three-high somersault down to the bottom man's shoulders, and not risk your neck nearly as much as you do going down a toboggan-slide. Give me a man who is ordinarily active, who has a little pluck and perseverance, and I will teach him to jump up and turn over before he is two days older.

"You see, a man is heavier from his waist down than he is up above. When he gets into the 'lunges,' no matter how awkward his attempt is, he is bound to flop around right side up, providing the man who holds the ropes don't ease up on them too much. Why, it's as simple and safe as eating your dinner!

"The ability to throw a somersault, forward or backward is the foundation on which all tumbling acts are built, and this is how to do it: Stand squarely on your feet. Don't keep them too close together, and be sure you have a good balance. Then rock forward a little until your weight rests on the balls of your feet, then give a sharp spring upward, at the same time lifting with the arms and shoulders. Practice this 'lift' a few times until you get the idea. You will find it will add a foot to the height of your jump. Now you are ready to turn over. The next time you jump up throw your hands high over your head and give your head a quick jerk backward at the same time. If the instant you feel your feet leave the ground, by drawing them up under you you will find that they will swing around so as to meet your hands, if you want to reach for them. Just catch hold of your knees and give a little pull and you are over.

"That's the 'back.' The 'forward' is on the same principle, only the head and arms are thrown forward after the 'lift.' The only hard part of it is to make a neat landing and not, after accomplishing the somersault, strike on your feet, and, pitching forward, fall all over yourself. A little practice will enable you to know just when to expect to land, and then you can begin to put some style into your work. You are now in a fair way to become a gymnast. All the rest is easy when you once get command of yourself."

Mexican Trickery.

The Mexicans on the border have an ingenious plan for cheating their Government out of postage. In Mexico the rates are high. For instance, it costs ten cents to send a letter from any of the river towns to the City of Mexico, or provinces south of there, and five cents to nearer points. The greasers are not at all lacking in trickery. Instead of paying the high rates of their own Government, they simply paddle across the river, buy a two-cent American stamp and mail their letters to any point in Mexico they please. They take a dollars' worth of trouble to save a few cents; but then the Government is cheated, and there is some satisfaction in that. The officials have tried to stop the business, but they couldn't do it.

Oleomargarine in Russia.

The Ministry of Imperial Property has prohibited the manufacture of oleomargarine in Russia. The article will be allowed for sale only in exceptional cases, and then it will have to be kept in vessels painted a certain color, so that everybody can at once know what it is. A fine of five hundred rubles will be imposed on the merchant who sells oleomargarine for butter; at the repetition of the offense his license will be revoked.

Large Families.

The Government of Quebec last winter provided that every father of a family having twelve or more children living should be entitled, under certain conditions of settlement, to one hundred acres of land. Since the day appointed for receiving claims, there have been no less than five hundred and forty-seven duly proven applications, and fresh claims are coming in, which, it is expected, will raise the total to between seven and eight hundred. The notable fact about this is that, while the burden of the birth and care of children comes to the mother, all she gets from the Government will be the use of one-third of the land if she lives longer than her husband.

CONSUMPTION.

I have a positive remedy for the above disease; by its use thousands of cases of the worse kind and of long standing have been cured. Indeed so strong is my faith in its efficacy, that I will send TWO BOTTLES FREE, with a VALUABLE TREATISE on this disease to any sufferer who will send me their Express and P. O. address. T. A. MISCELLANEOUS.

DR. HERDAN

RESPECTFULLY INFORMS THE public that he has opened an office at the Arlington House, Carson, but still has an office at the Clarendon Hotel, first floor, rooms 1 and 2, Reno, Nevada, where he can be consulted by all those needing his attention on Mondays from 9 A. M. to 10 P. M., and on Tuesdays from 8 A. M. to 1:45 P. M. A telegram will reach him any day, and he will cheerfully come, as his time belongs to the people.

I have treated 218 patients while in Reno, and any one who is dissatisfied can enter their complaints within three days from the first publication of this notice and I will return him or her every dollar that has been paid me, together with the drug store expenses. I take this method of returning thanks to the good people who have been my patients, and trust the same pleasant relations may exist in the future that has marked our short acquaintance.

BOZERO was foaled March 18, 1887. He is a handsome sorrel with star in face and white legs; of splendid conformation; stands 15½ hands high; has great power and substance, and is of the highest finish. His disposition is remarkably good, and he is very intelligent. These good traits, together with his excellent blood lines, will make him one of the finest foal-getters in Nevada.

BOZERO was sired by Prompter (No. 2305); he by Blue Bull (No. 75). Blue Bull is the sire of Georgetown, 2:16½; Zoe B, 2:17¼; Bessie, 2:17½; Royal Bounce, 2:19; Lena Swallow, 2:19; Will Cody, 2:19½; Silverton, 2:20¾; Chance, 2:20½; Lucy Fry, 2:20¾.

BOZERO'S dam was Mary, by Flaxtail (No 813). Flaxtail was the sire of the dam of Gladleaf, who made 2:15 at 3 years old and 2:11¼ at 4 years old.

TERMS $30 FOR THE SEASON

With usual return privileges.

The best of care taken of mares in any manner that the owner may desire, but no responsibility assumed for accidents or escapes.

As roadsters are a ready sale, and are fast taking the place of the big and heavy Norman and Clydes, breeders should improve the opportunity of getting a saleable colt by breeding to Bozero.
